## **REASONS FOR ALLOWANCE**

1. The following is an examiner's statement of reasons for allowance: none of the cited prior art shows a method of rendering a 2D graphic object, having a plurality of pixels, to a 3D graphic object comprising a step of generating z-axis parameters corresponding to the objects in response to the directional relation with an effect function which renders the z-axis parameters responsive to a relation limit varied with directions of the direction relation as now claimed in claims 1-3 and 7-9.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
